

The Lowest-Price Fuel
at the Pump Will Disappear

JUNE 1

Unless President Biden
Acts **NOW!**

Today, gasoline with 15 percent ethanol (called E15) is the **lowest-cost and cleanest fuel available** for regular automobiles.

But E15 will go away on June 1 unless President Biden takes action to allow sales to continue.

Call the White House today at (202) 456-1111.

Tell them we need E15 this summer.

We can't afford ANOTHER price hike at the pump.
