

April 3, 2024

President Joseph Biden  
The White House  
1600 Pennsylvania Avenue, N.W.  
Washington, DC 20500

Dear Mr. President,

As farmers and renewable fuel supporters from across the country, we want to thank you for your administration's recent decision to approve petitions from eight Midwest states allowing year-round sales of gasoline containing 15 percent ethanol (E15). Once implemented, this regulation will allow consumers in these eight states to maintain access to the lower-carbon, cleaner-burning E15 fuel blend all year long. Unfortunately, your administration is delaying implementation of the state petitions until April 2025, creating uncertainty and confusion about the availability of lower-cost E15 for this coming summer.

**With the 2024 summer driving season just a few months away, we are urging your administration to take additional action that will ensure consumers across the nation have uninterrupted access to lower-cost, lower-carbon E15.**

Allowing gasoline blenders and retailers to sell E15 this summer would help moderate prices at the pump, extend fuel supplies, and deliver relief to American families at a time of year when gasoline prices typically are at their highest. Today, E15 is selling for 10-25 cents per gallon less than standard E10 gasoline, allowing the average American household to save \$125-200 on its annual gasoline bill.

As war in Ukraine and unrest in the Middle East continue to create turbulence in the global fuel market, we encourage you to continue embracing year-round E15—a domestic solution that enhances energy security, reduces emissions, and bolsters American agriculture.

Sincerely,

Scott Gross Warden WA      Amy Landes New Carlisle OH
