

If you don't own an FFV, please consider one when you purchase your next vehicle. However, you can still use ethanol today! You can use E10 in all vehicles and E15 in all vehicles model year 2001 and newer.

There are approximately 3,600 retail stations offering these ethanol blends across the country. There's probably one closer than you realize! Visit our website at www.E85prices.com or use our mobile app.

FINDING AN ETHANOL BLEND

WHAT IS A FLEX FUEL VEHICLE?

Flex fuel vehicles, commonly called FFVs, are vehicles engineered to run on any ethanol/gasoline blend. FFVs allow the drivers, when available, to choose their fuel blend such as E20, E30, E50 up to E85. Drivers choose higher blends for a number of different reasons: price, cleaner burning fuel, and to support American jobs and American-made products.

Submit your E85 price at **E85prices.com** or **our mobile app** for a monthly chance to win a **\$100 fuel gift card.**

Before you fill your tank with a flex fuel blend, make sure you have an FFV.

- Check your fuel door.
- Look for an exterior FFV badge.
- Look for a yellow gas cap.
- Consult your owner's manual.

There are more than 21 million FFVs on the roads today including: compacts, sedans, minivans, trucks and SUVs. American automakers are producing new vehicles each year.

FFVS ON THE ROAD TODAY

American Ethanol increases our country's energy independence and strengthens our economic and national security by keeping American dollars at home rather than sending them to oil-rich countries in the Middle East and elsewhere around the globe.

- Ethanol can help lower the price of a gallon of fuel.
- Ethanol increases horsepower and octane.
- Ethanol reduces engine knocking and pinging.
- Ethanol helps keep your engine clean by reducing fuel system build up.
- Ethanol helps prevent gas line freezes in the winter.
- Ethanol burns cleaner, reducing greenhouse gas emissions by up to 50%.
- American Ethanol supports over 357,400 jobs across the economy, jobs that cannot be outsourced.

BLENDS BENEFITS OF HIGHER ETHANOL
